INSPECTION REPORT COMMENTS

Date of Inspection September 14, 2001 Identification Number PAD058444951

Company/Facility/Site Name Impress USA, Inc.

On September 14, 2001, the Department conducted a routine hazardous waste inspection at the above referenced facility. Dave Sanders, Production Manager for Impress, and Bob Jenkins, Maintenance Planner/Preventive Maintenance Specialist for Heing were present. This facility is listed on the EPA LQG Never Inspected List. The facility manufactures tin plated cans and lids for supplying containers for the pet food production. 99% of the cans manufactured are sold to Heing Pet Products. Three production lines make up the manufacturing of the cans. They are as follows: Three piece can process; The three can process and container lid process. There is no plating conducted at this site. Hazardous waste flammable liquid is generated at the three piece can production area. From residues from production drums and process lines are flushed. Valspor Seam Stripe is used to coat welded seams on 13 oz. cans. Satellite Accumulation is utilized at this area. Hazardous waste is also generated from 6 parts washers located throughout the plant, the production area. 1232 lbs of hazardous waste was transported off site on August 3, 2001 & 3143 lbs of hazardous waste was transported off site on August 31, 2001. It is apparent that more than 2200 lbs of hazardous waste was generated in August of this year, therefore the facility should follow the Federal & State requirements for a LQG of hazardous waste.
